SUMMIT SCHOOL
OF LEADERSHIP & MANAGEMENT (UK) LTD

Summit School of Leadership & Management (UK) Ltd is a limited liability company incorporated in the United Kingdom. Our training portfolio is built on the expertise and experience of our seasoned lecturers, researchers, consultants, engineers and business executives. Our expertise lies in providing training and integrated services across the business and engineering world. We know that investing in training is essential for individual staff development and also for the future of the organisation. We have therefore developed a broad range of courses from basic to specialist levels to cover needs as required.

Our Vision:

Our vision is to build an international organisation that will make modern leadership and management skills readily available to managers, leaders/future leaders, provide certification training to technical professionals, and to help businesses and institutions in the UK and Africa operate optimally.

Our services are aimed at:

- Supporting leaders and managers develop their leadership/managerial skills
- Nurturing and developing entrepreneurial skills
- Developing creativity among leaders and managers
- Showcasing best practices in the work environment
- Renewing professional ambition and job satisfaction

Special offer available for training of five or more participants at our **Milton Keynes** Training Centre

INTRODUCTION

As a leading player in Management/Leadership and Technical Consultancy/Technical Training, the mission of Summit School of Leadership and Management (UK) Ltd is innovation and improvement of skills in order to make a difference in the workplace. The focus of our courses is to develop leadership/management capabilities as well as technical skills so as to take advantage of opportunities and reduce risks created by the current economic climate.

The uniqueness of our capacity to deliver on specialized training and strategic business needs of our clients lies in the quality of academic and industry expertise available to us. We partner with the top players in the academia and business world in the design and delivery of our courses. We are therefore able to offer “knowledge-capture-based” package solutions as we explore newer frontiers of opportunities essentially in core-economic growth sectors of Oil and Gas, Engineering, Telecommunications, Energy/Power and Marine.

We support the aspirations of our clients by collaborating in areas of their human capacity development needs which is the backbone of any organizational continuity and success. We are committed to delivering high quality bespoke courses through our diversified classifications of training options and consultancy services. Our core businesses include:

- Strategy and Leadership Training
- Management and Business Skills Development Training
- Facilitation of Management Retreats, Conference & Seminars
- Educational Consultancy Services/Business Solutions
- Technical & Specialist Training

We look forward to working with you to meet all your training needs.

Gareth Davies, PhD
Director

LEADERSHIP & MANAGEMENT DEVELOPMENT COURSES

Leadership and management are two vital qualities in any effective organization. Little that is worthwhile can be achieved without effective leadership and management. There is clearly a requirement for future leaders to have a better understanding of their field of endeavour.

Our leadership programmes are carried out in collaboration with our partner institutions within and outside the UK. Our consultants also design bespoke courses to suit our clients' needs for ten or more participants. Furthermore, we also organise in-house training delivered at clients' facility. These trainings are intended for large number of junior staff, supervisors and junior managers.

TECHNICAL/CERTIFICATION TRAINING AND CONSULTANCY SERVICES

Fig. 1: Layout of Power Plant Monitoring & Control Training Facility

Summit School of Leadership and Management (UK) Ltd specialises in the delivery of technical training and consultancy services globally. Our range of services includes:

- Design and Construction of Technical Training Centres
- Technical Training
- Educational Consultancy Services

We work with our clients to design, construct, equip and operate large scale training facilities and assisting the locals to gain experience and run sustainable operations.

We partner with leading training providers to design courses suitable for training in the Oil & Gas, Power, Manufacturing, Agriculture and Marine Engineering industries. Some of our partners have over 20 years experience in technical training with state-of-the-art technical training equipment and facilities. These courses which range from 1 week (short courses) to 2 years are mainly for the technical development of client's workforce to fill the skills gap in the above mentioned industries.
